AFIANT Network Video Management Solutions for Construction

Put your security video where it belongs...at your fingertips

In a day when the pressure to do more with less is greater than ever, AFIANT network video solutions offer you time and money-saving efficiency. Security professionals or management can retrieve and view archived video online from anywhere in the world on a computer in seconds. In addition to the high quality recording, our AFIANT can also deliver bandwidth efficient video for live viewing of video keeping your network running smoothly. Seamless and simple to operate and maintain, AFIANT network video solutions reduces your manpower needs at the same time it increases your security capability.

Reducing the costs of security

Modern Security Solutions AFIANT Series Network Video Solutions saves time, money and headaches. For example you can:
Install in less than 15 minutes
Utilise existing cable infrastructure
View live and recorded video from anywhere in the world
Receive remote notification of motion when it is detected
Utilise the same system in classrooms for teacher training

Great investment

An investment that pays for itself over and over again, AFIANT network video solutions revolutionises the way your Construction site performs camera security.

Reliable, and remarkably easy-to-use, it stores and retrieves video from a wide range of network cameras including CCTV cameras from the same reliable and secure platform.

A sophisticated highly expandable network video solution, AFIANT network video solutions allows you to leave the costs and time burdens of traditional CCTV security methods behind. With AFIANT on your side, all your network video becomes searchable electronic media using any of our supported Web-based browsers from anywhere in the world.

What are you waiting for?

Don't waste another second of your company's valuable time on slow, cumbersome video systems. Put AFIANT network video solutions to work for you today and enjoy reliable, worry-free security and audio/video training for many years to come.

Experience that matters

Technology experts that understand the real world security needs of Construction projects, Modern Security Solutions engineers its software to deliver results day in and day out. Strengthened by more than a decade of experience of working with networks and video, we are a proud and trusted partner to the Construction industry. Competitively priced and approachable at all times, we work hard to turn technology into technology solutions.
