

AFIANT Network Video Solutions for Maritime Customers

Cost effectively secure and protect ports, shipyards, ships, cargo, yachts, and maritime workers

Almost every ship or vessel throughout the world has a large requirement for high quality and reliable network video security.

Our AFIANT network video solutions provide a rapid deployable, highly reliable and cost effective way to implement video security based on your existing network infrastructure.

All vessels may have a requirement for some or all of the security methods listed below. Be sure to see how our AFIANT series network video solutions can reliably and cost effectively implement these security measures in your vessel. This will ensure that you have the best security available to protect all your assets, staff and cargo.

Reducing the costs of security

Modern Security Solutions AFIANT Series Network Video Solutions saves time, money and headaches. For example you can:

- Install in less than 15 minutes
- Utilise existing cable infrastructure
- View live and recorded video from anywhere in the world
- Receive remote notification of motion when it is detected
- Utilise the same system in classrooms for teacher training

Great investment

An investment that pays for itself over and over again, AFIANT network video solutions revolutionises the way your education facility performs camera security.

Reliable, and remarkably easy-to-use, it stores and retrieves video from a wide range of network cameras including CCTV cameras from the same reliable and secure platform.

A sophisticated highly expandable network video solution, AFIANT network video solutions allows you to leave the costs and time burdens of traditional CCTV security methods behind. With AFIANT on your side, all your network video becomes searchable electronic media using any of our supported Web-based browsers from anywhere in the world.

What are you waiting for?

Don't waste another second of your valuable time on slow, cumbersome video systems. Put AFIANT network video solutions to work for you today and enjoy reliable, worry-free security and audio/video training for many years to come.
